INDEPENDENT AUDITOR'S REPORT

To the Township Board Township of Noble Branch County Bronson, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Township of Noble, Michigan, as of and for the year ended March 31, 2006, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Noble, Michigan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in the notes to the financial statements, management has not reported its financial statement under GASB 34 reporting format. As a result, no management discussion and analysis report, government wide statement of net assets, or government wide statement of activities is included. Management has not recorded certain general assets in governmental activities and, accordingly, has not recorded depreciation expense on those assets. Accounting principles generally accepted in the United States of America require that those general infrastructure assets be capitalized and depreciated, which would increase the assets and expenses of the governmental activities. The amount by which this departure would affect the assets and expenses of the governmental activities is not reasonably determinable.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United State of America, the financial position of the governmental activities of the Township of Noble, Michigan, as of March 31, 2006, and the changes in financial position thereof for the year then ended.

In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Noble, Michigan as of March 31, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

David F. Locey, CPA, PC

Sturgis, Michigan August 28, 2006

SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

The Township of Noble is located in Branch County and provides services including public safety and general administrative services.

<u>PRINCIPLES USED IN DETERMINING THE SCOPE OF ENTITY FOR FINANCIAL</u> REPORTING PURPOSES

REPORTING ENTITY

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board Statement #14 "The Financial Reporting Entity". The Township of Noble, Michigan operates under a council form of government. The accompanying financial statements present the Township's primary government and component units (none) over which the Township exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationship with the Township of Noble.

The major operations of the Township include general administrative and public safety services.

Criteria - primary vs. component unit (none) Oversight Responsibilities

- A. Financial interdependency responsibility for financial deficits or entitlement to surpluses
- B. Selection of governing authority
- C. Designation of management
- D. Ability to significantly influence operations
- E. Accountability for fiscal matter

BASIS OF PRESENTATION

FUND ACCOUNTING

The accounts of the Township of Noble are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. Each fund is accounted for by a separate set of self-balancing accounts that comprises its assets, liabilities, fund balance, revenues, and expenditures/expenses. The individual funds account for the governmental resources allocated to them for the purpose of carrying on specific activities in accordance with laws, regulations, or other restrictions.

SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONT'D.)

GOVERNMENTAL FUND TYPES

These are the funds through which most governmental functions typically are financed. The funds in this category are as follows:

General Fund - This fund is established to account for resources devoted to financing the general services that the Township performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the Township are included in this fund. This fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds - The Township of Noble has one Special Revenue Fund and a Cemetery Perpetual Carc Fund. These funds were established to account for proceeds that are legally restricted to expenditures for a specific purpose.

BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

GOVERNMENTAL FUNDS

All governmental funds utilize the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they become both available and measurable. Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenues are recorded as revenues when received in cash. General property taxes, self-assessed taxes, and investment earnings are recorded when carned (when they are both measurable and available).

BUDGET AND BUDGETARY ACCOUNTING

Formal budgetary accounting is employed as a management control for all funds of the Township. Annual operating budgets are adopted each fiscal year through passage of an annual budget ordinance and amended as required for the General Fund and Special Revenue Funds. The same basis of accounting is used to reflect actual revenues and expenditures/expenses recognized on a generally accepted accounting principles basis.

All unencumbered budget appropriations lapse at the end of each fiscal year, Township adopted fiscal year 3/06 budget in 3/05.

SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONT'D.)

FUND EQUITY

The unreserved fund balance for governmental funds represents the amount available for budgeting future operations.

REVENUE RECOGNITION

Property tax revenue recognition - The local unit property tax is levied on each December 1 on the taxable valuation of property located in the Township of Noble as of the preceding December 31. Ad valorem taxes were levied for the local unit operating purposes. These amounts are recognized in the general fund financial statement as taxes receivable or current tax collection.

TOTAL COLUMN ON COMBINED STATEMENTS -- OVERVIEW

The total columns on the combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or changes in financial position, in conformity with generally accepted accounting principles, also is not data comparable to a consolidation because interfund eliminations have not been made in the aggregation of this data.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONT'D.)

<u>CASH</u> AND CASH EQUIVALENTS

Deposits are carried at cost. Deposits of the Township are at two banks in the name of Township of Noble. Michigan Compiled Laws (MCL), Section 129.91, authorizes a local unit to deposit and invest in the accounts of Federally insured banks, credit unions and savings and loan associations; bond securities, and other obligations of the United States, or an agency or instrumentality of the United States in which principal and interest if fully guaranteed by the United States, including securities issued or guaranteed by the Governmental National Mortgage Association; United States government or Federal agency obligation repurchase agreements; bankers' acceptance of United States banks; mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan; and commercial paper rated by two standard rating agencies within the three highest classifications, which matures not more than 270 days after the date of purchase, and which involves no more than 50 percent of any one fund. Michigan Law prohibits security in the form of collateral, security bonds, or other forms for the deposit of public money.

Attorney General's Opinion No. 6168 states that public funds may not be deposited in financial institutions located in the states other than Michigan.

The Governmental Accounting Standards Board (GASB) Statement No. 3, risk disclosures for the Township's cash deposits are as follows:

	Primary Government
<u>Deposits</u>	Carrying Amount
Insured (FDIC) Uninsured	\$160,643 56,846
Total Deposits	<u>\$217,489</u>

Cash equivalents are money market accounts with maturity of 90 days or less - because of liquidity they are considered the same as cash.

COMPENSATED ABSENCE

None.

POST EMPLOYMENT BENEFITS

No benefits are available.

COMMITMENTS AND CONTINGENCIES

Management of the Township is not aware of any material commitments or contingent liabilities.

RISK MANAGEMENT

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries. The Township has participated in the Michigan Township Participating Plan (MTPP) since January 1, 1987. The plan covers general liability, non-owned/hired automobile liability, errors and omissions, property damage, and inland marine. Settled claims for the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The MTPP was created pursuant to the authority of a: Article 7, Section 28, Michigan Constitution of 1963; b) Section 1, Chapter I24, Michigan Compiled Laws (PA No. 35, 1951, as amended by PA No. 138, 1982). The Township voted unanimously to enter into this cooperative action agreement October 2, 1986 and have continued their membership since.

The Michigan Township Participating Plan was established April 1, 1985, pursuant to laws of the State of Michigan which authorize local units of government to exercise jointly any power, privilege or authority which each might exercise separately. The purpose of the plan is to jointly exercise powers common to each participating member; to establish and administer a risk management program; to prevent or lessen the incidence and severity of casualtylosses occurring in the operation of its members; and to defend and protect, in accordance with this agreement, any member of the authority against liability or loss. The powers and duties created hereunder and the described activities of the plan are not intended to constitute the issuance of a policy of insurance. The members intend, in the creation of the plan, to establish an organization for joint risk management and have not created as between member and member any relationship for the debts of or claims against any member.

The MTPP, while it operates under the Michigan Legislation of PA 138, does not operate as a risk pool due to a total transfer of risk to reinsurance companies backing the Participating Plan. Due to this reinsurance purchase;, there is no pooling of risk between members. The plan has protected itself by purchasing reinsurance. Participating Plan chose to adopt the forms and endorsements of conventional insurance protection and to reinsure these coverage's 100 percent, rather than utilize a risk pool of member funds to pay individual and collective losses up to a given retention, and then have reinsurance above that retention amount.

The Plan has reinsured 100 percent of its loss reserves and consequently has not reflected a liability for loss reserves on its balance sheet. In July 1992, the Plan entered into a negotiated settlement with Governmental Casualty Insurance Company (GCIC) and agreed to execute a commutation agreement whereby liability for all risks assumed by GCIC under their reinsurance agreements with the plan would be commuted back to the Plan. The Plan entered into a similar agreement with American Commercial Liability Insurance Company.

Based on actuarial study performed by William M. Mercer, Inc., the MTPP had the following open case reserves and IBNR reserves at June 30, 1996 under these commutation agreements:

Case	IBNR	Total
Loss Reserves	Reserves	Reserves
\$313,550	\$31,252	\$344,802

At June 30, 1996, the Plan has reinsurance limits in the amount of \$693,119 to cover the reserves.

The Plan has continued to use the services of Integrated Runoff Insurance Services Corporation (IRISC) to assist in formalizing loss reserve standards and in settling loss and loss adjustment expense reserves. IRISC has maintained its philosophy that the potential for governmental immunity should be ignored when setting case reserves, even though trends continue to indicate that average cases close for substantially less than the reserve estimates.

GASB 34 REPORTING FINANCIAL

Township has elected not to convert to GASB 34 format, therefore assets owned by the Township such as building and equipment are not stated at current values as of 03/31/06, also no current charge is being recorded for current year depreciation. Accordingly the Management and Discussion Analysis Letter, Statement of Net Assets, and Statement of Activities are not included per GASB 34 format.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Township of Noble Branch County, Michigan

We have audited the general purpose financial statements of the Township of Noble, as of and for the year ended March 31, 2006 and have issued our report thereon dated August 28, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Township of Noble's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contract and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township of Noble's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a

relatively low level risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, others within the organization, Township Board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

DAVID F. LOCEY, C.P.A., P.C

Sturgis, Michigan August 28, 2006 (269)-651-4225 Phone (269)-651-1989 Fax

COMMENTS AND RECOMMENDATIONS

Township of Noble Bronson, Michigan

We appreciated the opportunity of examining the records for the year ended March 31, 2006 and the assistance given during the examination.

During the course of the examination we noted no matters that were of material importance to point out to the Association for future reference.

Again, we appreciate the opportunity of being of service to you.

DAVID F. LOČEŽ/C.P.A., P.C.

August 28, 2006
